COMPANY NAME	Motorola Solutions
Configuration # 1	911 System C/O: Two (2) Positions, Eight (8) Trunks, Eight (8) Admin Lines, With Mapped ALI
Manufacturer and System Name:	Motorola Solutions CallStation (Includes Mapping)

Description of Standard Features

CallStation® is an economical and proven VoIP based 9-1-1 platform with a legacy CAMA interface, Next Generation 9-1-1 compliance and a messaging platform with consolidated Emergency and Administrative call taking served by NENA compliant standard telephony. External VoIP sets from Polycom are provided along with a traditional CAD spill for integration into other 3rd party products like CAD, Long Term Recorders and Mapped ALI if desired. Full MIS and Data Mining capabilities are included. Headset and Long Term recorder interfaces are provided as needed. Browser based Mapped ALI is included at no additional charge. All hardware, Software, Services, Support and Remote Monitoring is provided along with Dual 24" LCD displays at each position.

COMPONENTS LIST			
Provider of Service or Manufacturer of Component	Description of Component	Purchase Part Number of Component	Purchase Cost
<p>Some of the E-911 configurations require Microsoft Server Licenses, ESRI GIS Software licenses or other possible software licenses covered by other ITS Express Products Lists. Additionally, there are some hardware components proposed as part of the E-911 systems that could be used in other settings, such as servers, desktops, printers, switches, racks, and monitors. These items are only approved on the E-911 PSAP Express Products List 3748 to be used in the PSAP environment. ITS excludes the authorization to purchase such software and hardware from the E-911 # 3748 vendors if said items are not intended for use as part of the PSAP system.</p>
